

AMUSEMENTS

June Caprice in "Patsy." "Patsy" June Caprice's latest picture for William Fox, appears at the Isis theater tomorrow. Never has the little "Sunshine Maid" been more enthusiastically received than in this film.

June breaks into a lively series of adventures in this picture and gets a chance to stir things up. Here are a few of the things she does:

Upsets the easy going calm of a bachelor's home by running things to suit her capricious whims.

Steals said bachelor's affection from an adventuress.

Matches her own girlish wiles against those of the adventuress and wins.

Rescues her first and only beau from his entanglements and finally weds him.

Throughout all these thrills June retains her bewitching smile that scatters sunshine wherever it falls.

New York Tenderloin Cabaret Duplicated.

All resources of the great glass enclosed stages at the Culver City studios were taxed recently to meet the requirements of the latest Ince drama, "Love and Justice?" in which Louis Glaum is presented as the star at the Isis Monday. The characters in this swiftly moving play are carried rapidly from scene to scene with practically every episode enacted in an interior setting.

One important episode is laid in a New York basement cabaret. In order to make this scene realistic an exact duplication of one of New York's bohemian resorts was made. The types of people that make this sort of a place their rendezvous were also studied and their characteristics brought out on the screen.

"The Ne'er-Do-Well." "The Ne'er-Do-Well," by Rex Beach, the Selig spectacular drama filmed by the Selig Polyscope Company, features Wheeler Oakman and Kathryn Williams and an all-star cast.

The hero is Kirk Anthony, a college graduate and veteran football player, and since graduation the coach of his university team. On the evening following a football victory the last of the season, Kirk and others start out to celebrate. Late that night he finds himself on shipboard, and when he awakens he is without money and without baggage.

During the voyage, Kirk becomes acquainted with a woman—a Mrs. Stephen Cortlandt—whom he learns to admire very much. She is really a diplomatic agent of great influence. One day while Kirk is out hunting he meets in a forest bower, a Spanish girl who is known only as "Chiquita." He falls desperately in love with her, and tries vainly to discover her identity.

The story of his making good, of his winning of Chiquita despite the counter-plotting of Mrs. Cortlandt, of the clearing of his name, and of the final and decisive intervention in Panamanian affairs of old Darwin K. Anthony, is strongly engrossing and varied by many richly humorous episodes.

Chiquita is by far the most charming feminine character Rex Beach has drawn, and Kathryn Williams as Edith Cortlandt, is an exceeding convincing and fascinating type.

"The Ne'er-Do-Well" will be shown in Pensacola soon.

King Alfonso Wants to Be First President

Last picture received in America of the King of the Spain, who is said to have ambitions to be the first president of a Spanish republic.

Doing Good. . . Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delmeny, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."—adv.

Are You One of Them?
There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.—adv.

LESSON NO. 9.

Being at Order Arms: "Fix—Bayonet"—(If bayonet scabbard is carried on the belt)

rest; grasp bayonet with left hand, back of hand toward body, draw bayonet from scabbard and fix on barrel, glancing at muzzle; resume Order. If bayonet is carried on haversack, draw bayonet with left hand and fix in most convenient manner.

Being at Order Arms: "Unfix—Bayonet"—If bayonet scabbard is carried on the belt, execute Parade Rest, grasp handle of bayonet with right hand, pressing spring with forefinger of right hand, raise bayonet until handle is about 12 inches above muzzle, drop point to left, back of hand toward body, and placing at scabbard, return bayonet, blade passing between left arm and body; re-grasp piece with right hand and resume Order. If bayonet scabbard is carried on haversack, take bayonet from rifle with left hand and return to scabbard in most convenient manner. If marching or lying, the bayonet is fixed or unfixed in most convenient manner and rifle returned to original position.

Being at Order Arms: "Inspection Arms"—Take position of Port Arms, (2) seize bolt handle with thumb and forefinger of right hand, turn bolt handle up, draw bolt back and glance at chamber. Having found chamber empty or having emptied it, raise head and eyes front.

Being at Inspection Arms: "Order (or any other command in the manual of arms)—Arms"—At preparatory command push bolt forward, turn handle down, pull trigger and resume Port Arms. At command Arms, complete the movement ordered.

net until handle is about 12 inches above muzzle, drop point to left, back of hand toward body, and placing at scabbard, return bayonet, blade passing between left arm and body; re-grasp piece with right hand and resume Order. If bayonet scabbard is carried on haversack, take bayonet from rifle with left hand and return to scabbard in most convenient manner. If marching or lying, the bayonet is fixed or unfixed in most convenient manner and rifle returned to original position.

net until handle is about 12 inches above muzzle, drop point to left, back of hand toward body, and placing at scabbard, return bayonet, blade passing between left arm and body; re-grasp piece with right hand and resume Order.
